

# Develop a Cybersecurity Readiness Plan for Your Small Business

**Can you say with confidence that your small business is prepared for a cyber attack?**

*This workshop, facilitated by experts from Artemis Global Security, is designed to walk small businesses through the steps of developing and implementing a cybersecurity readiness plan. Each attendee will receive a guidebook developed specifically for small businesses. This workshop is part of the DatAssured program, which was designed by the Delaware SBDC to help small businesses reduce their cyber vulnerabilities. A light breakfast will be provided.*

*\*The first 10 registrants will also be eligible to sign up for a 10 minute 1:1 with the presenters following the session.*

## Join us for one of our upcoming events:
